In the abstract on page 1 'Research approach, design and method', the sentence 'Employees in two national organisations in the financial retail and logistics industries completed a self-administered survey questionnaire' must read 'Employees in two national organisations in the retail and logistics industries completed a self-administered survey questionnaire.'

On the bottom of page 4 under the heading 'Research participants' the sentence 'Authors conducted the study in two national organisations: the financial division of a retail organisation and a logistics company', must read 'Authors conducted the study in two national organisations: a division of a retail organisation and a logistics company.'
